Skin- and Bodycare

Safe and gentle care for all skin types

Healthy skin is essential to overall well-being, especially in healthcare settings where prevention and protection go hand in hand. Whether it's for daily hygiene, dry or sensitive skin, or managing conditions like Incontinence-Associated Dermatitis (IAD), ABENA offers a complete skincare range designed to meet the demands of daily care.

Developed in close collaboration with nurses and skincare specialists, our products are gentle, effective, and easy to integrate into daily care routines.

All products undergo thorough testing and quality control, including dermatological testing. Our product experts and specialized nurses are ready to help you put together the right combination of products to suit your hygiene and care routines.

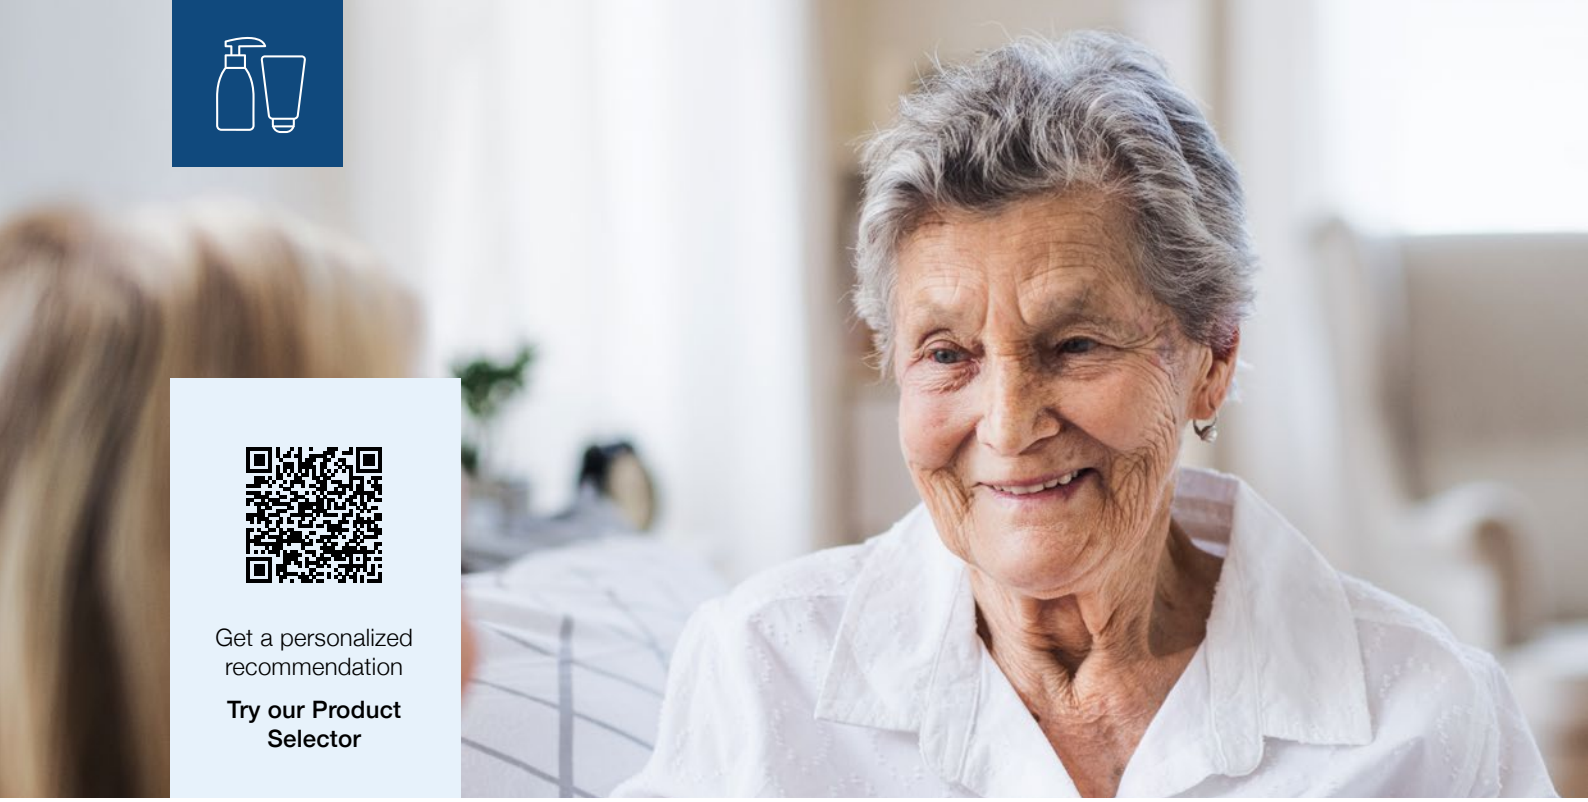

From healthcare to industry, our products are designed to support hygiene, comfort, and wellbeing – every single day.

Why you should choose skin- and bodycare from ABENA:

- Most of our products are dermatologically tested
- Our ranges includes both perfume and perfume-free options
- We offer expert support to help you choose the right products

Dignifying body washing

Why your approach matters

Bathing isn't just about getting clean. It's a deeply personal experience that can affect how a resident feels for the rest of the day. When someone needs help with something as intimate as washing, they're placing their trust in you.

A calm, respectful approach - paired with the right steps - can ease discomfort, protect their skin, and restore a sense of dignity.

The difference is in the details

Residents often feel vulnerable during body washing - especially if the process is rushed or inconsistent. Common issues like feeling cold, skipping body zones, or reusing a wash glove can make the experience unpleasant and increase the risk of infection or irritation.

Simple adjustments, like preparing the environment, changing gloves or wipes between each area, and maintaining a gentle sequence from clean to dirty, go a long way in providing both comfort and care.

A guide you can trust

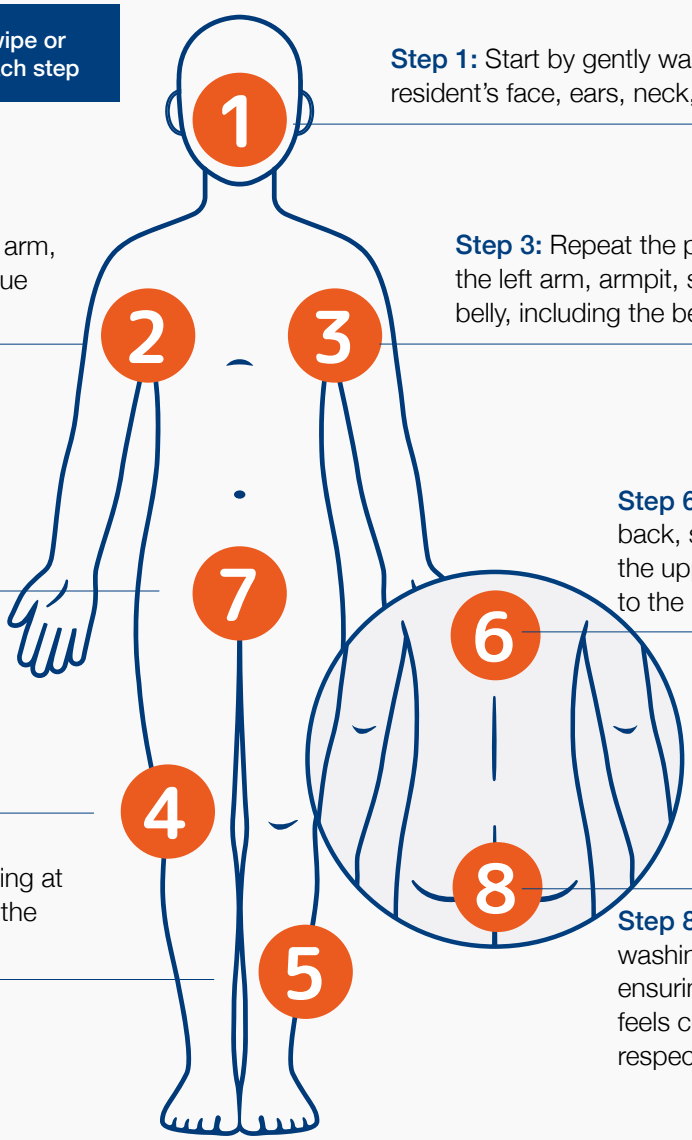

The 8-step washing sequence on the next page offers a thoughtful routine - designed to support both residents and caregivers. It helps you stay focused, avoid cross-contamination, and maintain skin integrity.

Most importantly, it encourages a moment of connection. Because when we slow down and follow a consistent, caring approach, we help people feel more like themselves.

Body wash sequence

Suggestion for a complete washing routine

Remember to change wipe or wash glove between each step

Step 1: Start by gently washing the resident's face, ears, neck, and chest.

Step 2: Move on to the right arm, armpit, side, and then continue down to the belly.

Step 3: Repeat the process on the left arm, armpit, side, and belly, including the belly button.

Step 4: Wash the right leg, starting at the thigh and moving down to the calf, finishing with the foot.

Step 5: Wash the left leg, starting at the thigh and moving down to the calf, finishing with the foot.

Step 6: Wash the back, starting from the upper back down to the lower back.

Step 7: Carefully wash the perineal area, being mindful of any skin sensitivities.

Step 8: Finish by washing the anal area, ensuring the resident feels comfortable and respected.

8 Step Guide to Bodywash

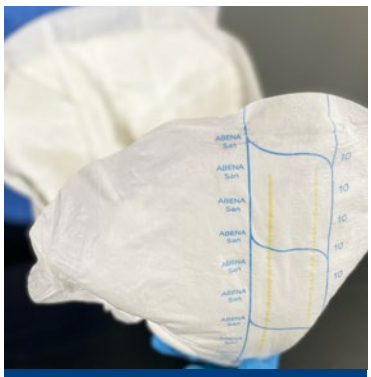

Incontinence associated dermatitis (IAD)

IAD is an inflammation of the skin that occurs when urine or feces come into contact with the skin. It is a significant healthcare challenge for patients living with incontinence worldwide.

A holistic approach is important when preventing IAD. In addition to using the right high-quality, breathable incontinence product, using suitable skincare and body wash products is essential.

With residents' and patients' quality of life as our highest priority, ABENA provides a gentle and protective solution.

STEP 1

Breathable protection

The first step in preventing IAD is choosing the right incontinence product. Select one that is as small as possible and as large as necessary - in both size and absorbency. A larger, more absorbent product isn't always the better choice.

STEP 2

Gentle cleansing

Gentle skin cleansing is essential in preventing IAD. Traditional soap and water can dry the skin, while towel drying increases friction on sensitive areas. Using wet wash gloves or wet wipes is gentler and more comfortable, and rinse-free products also improve efficiency in daily care*.

STEP 3

Moisture and barrier

Apply moisture and a barrier to help restore and protect the skin. Allantoin calms and hydrates, supporting the skin's natural moisture balance and suiting all skin types. Dimethicone can help form a protective barrier on top of the skin that both protects and calms the area.

**Based on findings from a study on ABENA's green range (Lisette S, Betsie GvG, Steven T, Cost-consequence analysis of "washing without water" for nursing home residents: A cluster randomized trial, Int. Journal of Nursing Studies) 2014.*

The right pH balance

The skin is the body's largest organ, making up about 15% of an adult's body weight. Its main function is to protect against bacteria and viruses as the body's first antimicrobial barrier.

Beneficial bacteria, known as normal flora, help protect the skin from harmful microorganisms.They thrive in an acidic environment with a pH between 4 and 6, while neutral or alkaline conditions can disrupt this balance. Skincare products within this pH range help maintain the skin's natural defense and barrier function.

Keeping the area clean and dry reduces the risk of irritation and infection, while poor hygiene can lead to fungal complications. Traditional washing with soap and water may be harsh on irritated skin, as friction can cause further damage.

"Instead, you could use a gentle, rinse-free glove since these products contain the right pH value and the right amount of soap and water in the product. So, it is ready to use and suitable for sensitive skin," explains Laura Klopp, our in-house Skincare Product Specialist.

Regular use of protective creams containing dimethicone helps form a barrier that shields the skin from moisture and irritants, supporting its natural integrity.

"Breaking the taboo through education and open dialogue is essential to ensure that those affected by IAD receive the attention and care they need."

- Laura Klopp, Skincare Product Specialist

Skincare

Wash with water

Hair Shampoo, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6800	No colorants or perfume	500 ml	5-6	6 / 120
1999918771	No colorants or perfume	600 ml	4,5-6	600 / 10

ABENA's Hair Shampoo is a mild, nourishing shampoo intended for all hair types. The shampoo leaves your hair clean and soft, and it's easy to rinse out, so you avoid soap residue that can potentially irritate the scalp. The shampoo is economical to use and has a long-lasting effect. The product is third-party certified and can therefore be used safely by the whole family.

Hair shampoo with perfume, ABENA

Item number	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
6664	500 ml	4-5	500 / 6

ABENA's Hair Shampoo is a mild, nourishing shampoo intended for all hair types. The shampoo leaves your hair clean and soft, and it is easy for you to rinse out. The shampoo is economical in use and has a practical long-term effect. The product is third-party certified and can be used safely by the whole family. The shampoo is completely colorant-free and is available both with and without perfume.

Conditioner, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
1999918772	No colorants or perfume	600 ml	4,5-6	600 / 10

ABENA Conditioner is a mild, nourishing conditioner that is particularly suitable for all hair types. The hair is left soft and easy to brush out and, at the same time, the conditioner is easy to rinse out, so that no conditioner is left, which could potentially irritate the scalp. Our conditioner is both economical to use and has a long-term effect. We recommend combining with ABENA's Hair Shampoo, which is mild and gentle on the hair and scalp. The product is third-party certified and can therefore be used safely by the whole family.

Hair & Body Shampoo, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6980	No colorants or perfume	500 ml	4-5	9 / 75
1999918707	No colorants or perfume	5.000 ml	4,5-6	5000 / 2

ABENA's Hair and Body Shampoo is an ideal all-round soap and a safe choice in hospitals, care homes, and in schools, kindergartens, and other similar institutions. The soap can be used for both hair and body washing, and the special formula easily and gently removes impurities. The soap is very concentrated and therefore economical to use.

Skincare

Wash with water

Body Shampoo, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
1999918746	No colorants or perfume	600 ml	5-6	600 / 10

ABENA Hair and Body Shampoo is an ideal all-round soap and a safe choice in hospitals, care homes, and in schools, kindergartens, and other similar institutions. The soap removes impurities easily and gently. The soap is very concentrated and therefore economical to use.

Mild Cream Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
7766	No colorant or perfume	500 ml	4-5	6 / 144
1000002557		600 ml	4,5	600 / 8
7767	No colorant or perfume	5.000 ml	4-5	3 / 36

ABENA's Mild Cream Soap is the safe choice for daily hand washing. The soap has a creamy consistency and has been developed specially for frequent hand washing. The soap's pH value is adapted to that of your own skin, which means that your skin is not dehydrated by the soap, even when you wash your hands often. The mild formula, which does not contain any colorant or fragrance, nourishes and moisturizes the skin, and ensures clean, soft hands. It is the ideal solution for all skin types - including extra delicate and sensitive skin. ABENA's Cream Soap is gentle on your skin, but effective against dirt and bacteria.

Liquid Hand Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6661	No colorant with perfume	500 ml	4-5	6 / 100
6760	No colorant, with perfume	5.000 ml	4-5	4 / 20

ABENA's Liquid Soap is particularly suitable for frequent hand washing. Its nourishing and moisturizing properties, and a skin-friendly pH value guarantee clean and soft hands. The hand soap contains no colorants and has a light, mild scent. The soap is gentle on your skin, but effective against dirt and bacteria.

Wash with water

Shower and Bathing Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6662	No colorant, with perfume	500 ml	4-5	4 / 210
6762	With perfume	5.000 ml	4-5	5000 / 2

ABENA's Shower and Bathing Soap is a mild bathing soap that you can use to wash both your hair and body. The soap's pH value is adjusted so that it corresponds to your skin's own pH. In other words, it is a really good all-round soap, which is perfect for versatile, frequent use. The product contains no colorants and has a mild parfume.

Shower and Bathing Oil, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6663	No colorants, with perfume	500 ml	4-5	4 / 210

ABENA's Shower and Bathing Oil has fantastic washing properties and prevents delicate and sensitive skin from becoming dry and irritated. The composition of essential oils and specially selected ingredients ensures that plenty of moisture is provided and the skin is deeply nourished. The oil can also be used as a hair shampoo for people with a tendency to very dry scalps. We also recommend that people with deep skin folds use this oil as an alternative to soap.

Our Shower and Bathing Oil contains castor oil which, combined with the other ingredients, gives the bath oil a unique 3-in-1 effect: it cleans, softens, and provides moisture. The Shower and Bathing Oil can be used for both children and adults, as the pH value is perfectly adapted to the skin's own value. This also means that the oil actually helps strengthen the skin.

Intimate Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
6665	No colorant or perfume	500 ml	3,5-4,5	500 / 6
1000004355	No colorant or perfume	200 ml	3-4	6 / 250

ABENA Intimate Soap is a specially developed soap for intimate care and for people with particularly sensitive skin who still prefer to use soap and water. The soap is extra mild and therefore a safe choice if you want to avoid skin irritations, as it respects and maintains the natural moisture balance in the intimate area. The intimate soap is easy to rinse off, and the pH value is adjusted to the intimate area - which is one of the reasons why the soap helps to ensure optimal intimate hygiene.

Wash with water

Shaving Gel, ABENA

Item number	Volume, net	Material	Dimensions	ml per pcs / pcs per cll
1999918669	200 ml	PET,HDPE,LDPE,PP	7.5x17.6cm, Ø4.5cm	200 / 12

ABENA Shaving Gel is mild and without perfume and therefore the obvious choice for a comfortable and gentle shave. The consistency makes it easy to distribute the gel evenly, so the razor blade glides more easily over the skin. Our shaving gel is a light and transparent gel that provides a close and thorough shave while taking care of the skin.

Wash Glove, Molton, ABENA

Item number	Features	Dimensions	Material	pcs per pk / pk per cll
491910	Ultrasonic sealed	23x16cm	Polyester	50 / 20
1000001133	Ultrasonic sealed	23x16cm	PE,polyester	50 / 20
491930	Ultrasonic sealed	22.5x15cm	Polyester	50 / 49

ABENA's Wash Glove for personal hygiene is made of strong material and designed for single-use. The glove's embossed surface makes it easy to remove impurities and bacteria from the skin. The glove is intended for a full cleansing, and its soft and comfortable material makes it particularly suitable for washing exposed areas and delicate skin. The glove is strong and absorbent, even when wet. The practical opening in the wash glove makes it easy to put on. We also recommend using an ABENA nitrile glove under the wash glove for extra protection against bacteria and viruses. Our wash glove is practical and hygienic. And it is easy to use in a wide range of situations; i.e. patient care, private chores or on a camping holiday, when there are limited opportunities for a proper bath.

Wash Gloves, Airlaid/PE, ABENA

Item number	Features	Dimensions	pcs per pk / pk per cll
1999918642	Ultrasonic sealed, airlaid	22x16cm	50 / 20

ABENA's Wash Glove for personal hygiene is made of airlaid material and developed for single-use. The air-treated material makes the wash glove particularly soft and comfortable for sensitive and delicate skin. The glove has a high absorption capacity - up to six times its own weight.

At the same time, the wash glove has a significantly greater strength when wet compared to traditional paper. This is because the glove has been developed with an inner layer of PE film, which makes it stronger when it gets wet.
The embossed surface of the glove makes it easier to remove impurities and bacteria from the skin. The practical opening in the glove makes it easy to put on the glove. We recommend wearing a nitrile glove inside the wash glove for protection against bacteria and viruses. Note that the wash glove can be used on both sides.

Wash Cloths, Airlaid, ABENA

Item number	Dimensions	Material	Layer quantity	Folding method	pcs per pk / pk per cll
246015	20x17.5cm	Airlaid	1 layer	Plain	250 / 10
246006	20x17cm	Airlaid	1 layer	Plain	250 / 10
246008	26x20cm	Airlaid	1 layer	Plain	150 / 7
4926	38x29cm	Airlaid	1 layer	Z-fold	50 / 12
4924	30x20cm	Airlaid	1 layer	Z-fold	100 / 15
1999918809	20x17.5cm	Airlaid			168 / 10

ABENA's Airlaid Wash Cloth for personal hygiene is a really good disposable wash cloth for full body washing. The cloth is made of a special air-treated material, which makes it extra soft and therefore ideal for washing the entire body - not least for people with delicate and exposed skin. At the same time, this paper washcloth has a very high absorbency. In fact, it can absorb up to six times its own weight. The Airlaid Wash Cloth also has much greater strength when wet compared to traditional paper.
If the cloth is moistened in water, it becomes extra soft and comfortable against the skin, which makes it particularly suitable for patient care, baby washing, and for people with delicate skin. The disposable wash cloth can also be an ideal solution for general beauty care when you just want to take extra care of your skin.

Dry Wipe, ABENA Classic

Item number	Dimensions	Material	Folding method	pcs per pk / pk per cll
1999918144	30x38cm	Polyester,viscose	Z-fold	65 / 12

ABENA's CLASSIC Dry Wipe is a soft wipe in a larger size. The wipes are made of a non-woven material, which has low fiber release. Low fiber release reduces the risk of microorganisms being transported and spread in sensitive environments, reducing the risk of cross-contamination. Created with care, these dry wipes offer a great cleansing experience and are suitable for individuals of all ages, including adults, children, and even babies. It is the perfect solution to use for personal hygiene, wherever you go. Not limited to personal hygiene, our multifunctional dry wipes serve a variety of purposes. Whether it's for cleansing delicate skin or for general cleaning, these wipes offer the solution for your needs.

Dry Wipes, ABENA PREMIUM

Item number	Dimensions	Material	Color	pcs per pk / pk per cll
1999919079	20x18cm	Viscose	White	200 / 10
1999918112	30x30cm	Viscose	White	50 / 12

ABENA PREMIUM Dry Wipes are very soft, making them suitable for gentle cleansing of delicate skin. The wipe is embossed and made of a very strong material. Created with care, these dry wipes offer a great cleansing experience. The cloth is suitable for people of all ages, including babies. It is the perfect solution to use for personal hygiene, wherever you go. Our multifunctional dry wipe can be used for a variety of purposes. Whether it's for cleansing delicate skin, cleaning up spills or dirt, these wipes offer solutions to your needs.

Skincare

Wash with water

Foam Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
150693	Colorant- and fragrance-free	800 ml	4-5	800 / 6
150220	Colorant- and fragrance-free	5.000 ml	4-5	5000 / 2

ABENA's Foam Soap is a safe choice for daily hand washing. The soap is, as the name indicates, developed in foam form, which produces a light, airy texture and a soap that is also extra easy to apply. Our foam soap is perfect for frequent hand washing, since the pH value in the soap is adapted to your own skin's value. This means that your skin does not dry out, even when you wash your hands often. At the same time, the soap's formula has had balm added with glycerin, which both nourishes and moisturizes your skin and leaves your hands clean and soft. The foam soap does not contain neither colorant nor perfume and is therefore the ideal solution for all skin types - including extra delicate and sensitive skin. ABENA's Foam Soap is gentle on your skin, but effective against bacteria and dirt.

Towel, Airlaid, ABENA

Item number	Dimensions	Material	Folding method	pcs per cll / cll per pll
246010	58x26cm	Airlaid	3-fold	344 / 16
246011	140x80cm	Airlaid	Z-fold	36 / 18

ABENA's Airlaid Paper Towel is particularly soft and gentle on the skin and therefore an obvious solution for drying your whole body. The air-treated material makes the disposable towel extra soft and absorbent - up to six times its own weight. Although it is made of paper material, the towel has very good strength and is of good quality, which far surpasses ordinary paper. The soft material also results in less friction, which makes it ideal for delicate and extra sensitive skin.

Wash Cloths, Paper, ABENA

Item number	Dimensions	Material	Layer quantity	Folding method	pcs per pk / pk per cll
246062	25x19cm	Paper,virgin fiber	6 layers	C-fold	125 / 8
246051	19x19cm	Paper,virgin fiber	3 layers	Plain	1800 / 30

ABENA's Paper Wash Cloth for personal care and wiping is a good solution, when there is a focus on both quality and cost. Even though it's made of paper, we do not compromise on good skincare. The disposable cloth is soft and comfortable against the skin and therefore particularly suitable for a full body wash. This disposable cloth can be used for all ages and skin types. It is a good idea to moisten the paper wash cloth before use to achieve extra softness and comfort.

ABENA's Wet Wipes for personal hygiene are made of polyester and viscose, which makes them extra soft and comfortable against the skin. Our wet wipes are a great alternative to traditional body cleansing with soap and water and, thanks to the pH value, they can be used all over the body. They easily and effectively remove impurities and unpleasant odours. The wet wipes are available in different sizes and packages, which makes it easy to find the right solution for your personal needs. And of course, wet wipes are always very practical to take with you on the go.

Bed Bath Wipes, ABENA

ABENA's Bed Bath Wipes are made from 100% viscose. The strong, quality material in our wipes ensures a nice, soft, and comfortable feeling when they come into contact with the skin. One great advantage of the Bed Bath Wipes is that they can be heated in the microwave, which provides a pleasant experience and extra comfort during the bed bath. The ingredients are carefully selected, not least to avoid the development of allergies. The wipes also contain allantoin, which is a moisturizer providing a soothing effect on the skin. A really good all-round wipe, which is ideal for bed baths and a comfortable and effective alternative to traditional washing with soap and water.

Bathing Wet Wipes, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	pcs per pk / pk per cll
1010002576	Cleanroom produced, 8pcs, no color or perfume, rinse-free	20x22cm	Polyester,viscose	4,5-6	8 / 20
1010002577	Cleanroom produced, 4pcs, no color or perfume, rinse-free	20x22cm	Polyester,viscose	4,5-6	4 / 36

ABENA's Bathing Wet Wipes are pre-moistened wipes designed for a convenient and effective cleansing of the body. These wipes are typically used when traditional bathing is not available or for people with mobility issues. Aged skin is often requires a more delicate and gentle care. ABENA's Bathing Wet Wipes are typically formulated with gentle ingredients and moisturizers to cleanse the skin without causing irritation or dryness. ABENA's Bathing Wet Wipes come in small packages and are ready to use. This makes the wipes very convenient for caregivers or family members assisting immobile people with personal hygiene. The wipe package is in a pocket size, which makes it easy and discreet to carry in a pocket or a bag. Despite their small size, single-pack bathing wipes are often designed for full-body cleansing. This make them very hygienic, as a single pack can provide a full-body cleansing, which minimizes the risk of cross-contamination in e.g. hospitals or nursing homes. The unopened package can also be heated in the microwave for higher comfort.

Cleansing Foam, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
6658	No colorant, with perfume, rinse-free	400 ml	5,5	400 / 6

ABENA's Cleansing Foam is mild and soft and has effective cleaning properties for personal hygiene.
A good alternative to traditional washing with soap and water. This cleansing foam is particularly suitable for people with delicate skin who need as little friction as possible when washing.

The foam is easy to apply and gentle on the skin. The product is ideal when changing incontinence products, as the foam quickly and effectively dissolves feces and removes unpleasant body odors. Excess cleansing foam can be removed with ABENA's disposable wash glove.
ABENA's Cleansing Foam contains specifically selected ingredients that protect delicate skin and cares for the skin by providing the necessary moisture. The product can be used by both children and adults. Suitable for daily use.

Washing Lotion, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6964	No colorant or perfume, rinse-free	500 ml	5-6	6 / 120

ABENA's Washing Lotion for personal hygiene is a mild and effective rinse-free lotion developed for gentle body cleansing. A good alternative in various situations when you don't have access to a traditional bath. ABENA's Washing Lotion has been developed specifically for people who are bedridden or have mobility issues. This lotion is unique in that it can be used without soap and water, and leaves you with a pleasant and clean feeling.

ABENA's Washing Lotion is mild and gentle on the skin, and available with and without perfume. The lotion effectively removes unpleasant odors and leaves the skin fresh and clean. At the same time, it protects and cares for the skin, thanks to the ingredient, allantoin. When combined with a soft cloth or dry wash glove, it is a very gentle way to wash the skin with minimum friction. This washing lotion can be used on both children and adults.

A good alternative in various situations in which you don't have access to a traditional bath. ABENA's Washing Lotion has been developed specifically for people who are bedridden or have mobility issues. This lotion is unique, because it can be used without soap and water, and leaves you with a pleasant and clean feeling.

ABENA's Washing Lotion is mild and gentle on the skin, and it is available with and without perfume. It effectively removes unpleasant odors and leaves the skin fresh and clean. It simultaneously protects and cares for the skin, thanks to the ingredient, allantoin. When combined with a soft cloth or dry wash glove, it is a very gentle way to wash the skin with minimum friction. This washing lotion can be used on both children and adults.

Shampoo Cap with Conditioner, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	pcs per cll / cll per pll
491917	No colorant or perfume	21x16x4.5cm, Ø32cm	PET,viscose	5-6	30 / 60

ABENA's Shampoo Cap with Conditioner is a perfect solution in situations when you don't have access to a traditional bath with water. The shampoo cap has been specifically developed for bedridden people, but can easily be taken with you, for example on a camping holiday or hiking trip. The Shampoo Cap's shampoo and conditioner are mild and gentle on skin and hair. We recommend to heat the shampoo cap in the microwave before use - this provides extra comfort and a nice feeling that almost feels like having a real bath. Our shampoo cap is an easy and effective solution for people who appreciate the feeling of clean and freshly washed hair.

Wet Wash Glove, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	pcs per pk / pk per cll
540051	No colorants or perfume, 8 pcs., rinse-free	22x15cm	Polyester,viscose	4-5	Half-fold	8 / 30
1999914717	No colorants or perfume, 8 pcs., rinse-free	23x15.5cm	Polyester,viscose	4-6	Half-fold	8 / 30

ABENA's Wet Wash Gloves for personal hygiene are a good alternative to the traditional bath with soap and water since they are rinse-free. One package is sufficient for a full-body cleansing. The material is soft and comfortable, making it particularly suitable for cleansing exposed and delicate areas. It contains the perfect amount of soap and water, which makes it suitable for sensitive skin. In addition, you will experience less friction against the skin, since no towel is needed. ABENA's Wet Wash Glove has moisturizing and protective properties. The glove can be used as it is, or you can heat the unopened package in the microwave before use for extra comfort. The embossed surface of the glove makes it easier to remove impurities and bacteria from the skin. You get a moist, two-sided glove, which means that both the front and back of the glove can be used for body cleansing. The Wet Wash Glove offer a complete grip and control of the clean and unclean side while cleansing the patient. It is possible to turn the glove over without touching it and without contaminating the other hand. Recommended for use in various situations, for example cleansing after using an incontinence product, in the gym or on a camping holiday when there are limited options for a proper bath.

Rinse-free solutions

Wet Wash Glove, ABENA Classic

Item number	pcs per pk / pk per cll
1000025811	5 / 48
1010002583	8 / 30

ABENA's Wet Wash Gloves for personal hygiene are a good alternative to the traditional bath with soap and water since they are rinse-free. One package
is sufficient for a full-body cleansing. The material is soft and comfortable, making it particularly suitable for cleansing exposed and delicate areas. It contains the perfect amount of soap and water, which makes it suitable for sensitive skin. Also, you have less friction since no towel is needed.
ABENA's Wet Wash Glove has hydration and protection properties. It can be used as it is, or the unopened package can be heated in the microwave
for added comfort. The glove's embossed surface makes removing impurities and bacteria from the skin easier. It is a moist, two-sided wet wash
glove that can be used on the front and back. The wet wash gloves offer a complete grip and control of the clean and unclean side while cleaning the
patient. Flipping sides of the product using the same hand without necessarily using or contaminating the other hand is possible. Recommended for
use in various situations like incontinence care, in the gym or on a camping holiday when there are limited opportunities for a proper bath.

Hair and Body Wash, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
6993	For washing without water, no colorant or perfume	200 ml	5-6	200 / 6

ABENA's Hair and Body Wash is the ideal go-to solution in various situations when you don't have access to a traditional bath. The soap has been developed specifically for people who are bedridden or have movement difficulties.

What makes this soap completely unique compared to other similar skincare products is that it can be used without water, and leaves you with the pleasant sensation of having showered. The soap is gentle on the skin and is available with and without perfume. And as the name indicates, it can be used for both body and hair washing. ABENA's Hair and Body Wash is easy to use and effectively removes unpleasant odors, leaving the skin fresh and clean.

Skincare

Skincare for specific condition

Intensive Care Cream, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
1010001056	70% lipids, no color or perfume	100 ml	PH 5-6	100 / 12
6988	No colorant or perfume, 70% lipids	30 ml	4-5	30 / 20
6966	No colorant or perfume, 70% lipids	100 ml	4-5	12 / 180
6970	No colorant or perfume, 70% lipids	200 ml	4-5	12 / 156

ABENA's Intensive Care Cream is specially developed for the care of very dry and irritated skin and acts like a rich moisturizer.
The enriched formula with 70% lipids, creates a natural barrier without leaving the skin feeling greasy. The barrier effect lasts up to 5 hours, making it very suitable for various skin conditions.
ABENA's Intensive Care Cream is a thick and rich cream with a smooth and light texture that makes it easy to apply on dry areas. Recommended for very dry or irritated skin. Can be applied to both body and face, as well as hands and feet, making it a great all-round cream for the whole family.

Barrier cream, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
1999918737	No colorants or perfume, 20% lipids	25 ml	4-5	25 / 20
1999918738	No colorants or perfume, 20% lipids	100 ml	4-5	100 / 12

ABENA's Barrier Cream with 20% fat creates an effective and water-repellent barrier that leaves a protective surface on the skin. Most medical adhesive products can be used after applying the cream. Tests show that this cream is very gentle on the skin, as it is suitable for sensitive skin and dermatologically tested. It has a very pleasant texture and is easy to apply, even on delicate and sensitive skin. Our barrier cream is recommended for sensitive or dry skin, and it is suitable for use in connection with changing incontinence products.

Barrier Ointment, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll
6992	No colorant or perfume, 33% lipids	30 ml	4-5	150

ABENA's Barrier Ointment with 33% lipids creates an effective water-repellent barrier and leaves protection on the outer surface of the skin. Our Barrier Ointment is suitable for sensitive skin and dermatologically tested. The tests show that the ointment is very gentle to the skin. The water-in-oil emulsion, in combination with Olus Oil, helps maintain the skin's natural moisture balance. The smooth texture makes it easy to apply on delicate and sensitive skin.
Recommended for sensitive or dry skin and cold climates. Ideal for incontinence care.

Skincare

Skincare for specific condition

Barrier cream, ABENA

Item number	Features	Volume, net	ml per pcs / pcs per cll
1999918672	CMC, 20% zinc, without perfume	50 ml	50 / 6
1999918673	CMC, 20% zinc, without perfume	100 ml	100 / 6

ABENA's Barrier Cream with Zinc Oxide and CMC (Carboxymethyl Cellulose) is ideal for protecting sensitive and irritated skin. Both zinc and CMC have absorbent properties and form a powerful barrier that keeps bodily fluids such as feces and urine away from the skin. Therefore, the cream is suitable for particularly weeping skin caused by e.g. fecal incontinence.

Skincare Ointment, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6659	No colorant or perfume, 41% lipids	150 ml	5-6	12 / 252

ABENA's Skincare Ointment with 41% lipids is ideal for very dry and irritated skin. A series of tests have shown that the composition of the ingredients helps maintaining the skin's natural moisture balance for up to 24 hours.
ABENA's Skincare Ointment also creates a protective barrier, which improves the structure of the skin. The ointment contains allantoin for a strong soothing and hydrating effect while dimethicone creates a barrier on the skin.
The very thick and rich ointment has a smooth texture that makes it easy to apply on exposed and delicate skin areas, e.g. to prevent Incontinence Associated Dermatitis (IAD).
ABENA's Skincare Ointment has been dermatologically tested, and is proven to be very gentle on the skin and thus suitable for sensitive skin.

Zinc Ointment, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
1999919580	No perfume, 20% zinc oxide	20 ml	4-5	20 / 200
6963	No perfume, 20% zinc oxide	100 ml	4-5	6 / 504

ABENA's Zinc Ointment with 20% zinc oxide creates a white repellant barrier against irritants such as urine and feces, that lasts 8 hours. Our Zinc Ointment is suitable for sensitive skin and dermatologically tested. The tests show that our ointment is very gentle to the skin. The water-in-oil emulsion provides the necessary moisture and protection to the skin. In combination with Shea butter, it has a soothing effect on the skin. The ointment absorbs quickly, and excess ointment can easily be wiped away without too much friction.
Recommended especially for bedridden and incontinent people whose skin needs gentle care since it soothes irritated skin.

Skincare

Skincare for specific condition

Active Gel, ABENA

Item number	Features	Volume, net	pH value (conc.)	pcs per cll / cll per pll
6654	No colorant	250 ml	5-6	6 / 192

ABENA's Active Gel is perfect for massage. The gel is made without preservatives and contains moisturizing effect that prevent your skin from being
dehydrated. It contains essential oils such as peppermint and eucalyptus, together with menthol, which give the product a fresh and cool scent.

Zinc Oxide Spray, ABENA

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
1000003933	No perfume, 10% zinc oxide	100 ml	5-6	100 / 6

ABENA's Zinc Spray with 10% zinc oxide creates a nice and very thin barrier to the skin. The unique spray applicator TLT (Thin Layer Technology) distributes the lotion evenly. The thin, light, smooth, textured zinc spray is easy to spray out, and can be sprayed directly on the desired area. This minimizes the need for physical contact and keeps hygiene intact. Also, it keeps moist areas dry, which increases better hygiene. The lotion is long-lasting and quickly absorbed. Our ABENA Zinc Spray is suitable for sensitive skin and dermatologically tested. The test shows that our lotion is very gentle to the skin. Recommended especially for bedridden and incontinent people whose skin needs gentle care since it soothes irritated skin.

Zinc Paste, ABENA

Item number	Features	Volume, net	ml per pcs / pcs per cll
1010002584	No perfume, 30% zinc	30 ml	30 / 20

ABENA's Zinc Paste, with 30% zinc oxide, creates a white, repellent barrier against irritants such as urine or faeces. The high zinc oxide content repels moisture and provides high absorbency, which can help to keep the skin dry and hygienic. In addition, it contains allantoin, which has moisturizing properties. The thick and rich zinc paste has a soft texture that makes it easier to apply to irritated areas. The paste contains no perfume and is suitable for all skin types.

Zinc Paste, ABENA

Item number	Features	Volume, net	ml per pcs / pcs per cll
1999910494	No perfume, 40% zinc oxide	60 ml	60 / 6

ABENA's Zinc Paste, with 40% zinc oxide, creates a white repellant barrier against irritants, such as urine or feces.
The high zinc oxide content seals out moisture and has a high absorbency, which can help keep the skin dry and hygienic. The thick and rich zinc paste has a smooth texture that makes it easy to apply on irritated areas and is long-lasting. It is recommended especially for bedridden and incontinent people whose skin needs gentle care since it soothes irritated skin.

Perineal Glove, ABENA

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	pcs per pk / pk per cll
1999914714	No colorant or perfume, with 3% Dimethicone, 4 pcs.	23x14.5cm	Polyester,viscose	4-6	Half-fold	4 / 50
1000003181	No colorant or perfume, with 3% Dimethicone, 4 pcs.	22x15cm	Polyester,viscose	4-4,5	Half-fold	4 / 40

ABENA's Perineal Gloves are a good personal hygiene alternative to the traditional bath with soap and water as they are rinse-free. One package is sufficient for cleansing the perineal area after using an incontinence product.
The glove contains 3% dimethicone, which moisturizes while forming a protective barrier to prevent the skin from drying out. It also contains the perfect amount of soap and water, which makes it suitable for cleansing exposed and delicate skin areas and, e.g. for preventing incontinence-associated dermatitis (IAD).
The material is soft and comfortable, making it particularly suitable for sensitive skin. Also, you have less friction since no towel is needed.
ABENA's Perineal Gloves has hydration and protection properties.
It can be used as it is, or the unopened package can be heated in the microwave for added comfort. The glove's embossed surface effectively removes impurities and bacteria from the skin. It is a moist, two-sided wet wash glove which can be used both on the front and back. The wet wash gloves offer a complete grip and control of the clean and unclean side while cleaning the patient. Flipping the sides of the glove using the same hand without necessarily using or contaminating the other hand is possible.

Hair & Body Wash, Bambo Nature

Item number	Features	Volume, net	pH value (conc.)	pcs per pk / pk per cll
1000011938	No colorant or perfume, EU	150 ml	5-6	6 / 8
1999903964	No colorant or perfume	500 ml	5-6	500 / 6

Bambo Nature Hair & Body Wash makes giving a bath a fun and enjoyable experience. The soap's specially developed formula cleans the child's body, hair, and delicate scalp, while protecting their sensitive skin. Our soap is dermatologically tested, suitable for sensitive skin and certified by Asthma Allergy. It can be used by the whole family.

Soothing Cream, Bambo Nature

Item number	Features	Volume, net	pcs per pk / pk per cll
1000011935	No colorant or perfume	100 ml	6 / 10

Bambo Nature Soothing Cream is a special water-repellent cream with nourishing properties for delicate and sensitive baby skin, as well as for dry skin. Containing 38% lipids, the cream is particularly suitable for skin that is exposed to moisture, for example around the mouth and in the diaper area. The cream forms a barrier that acts as a protective film on the skin, while also allowing the skin to breathe. The cream is absorbed quickly and is non-greasy. Can be used in combination with Bambo Nature wet wipes. The product is dermatologically tested and eco-labeled.

Wet Wipes, Bambo Nature

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	pcs per pk / pk per cll
1000012810	No colorant or perfume, with rigid lid, 80 pcs.	15x20cm	Polyester,viscose	4-6	Z-fold	80 / 12

Bambo Nature Wet Wipes are made from a polyester and viscose mix and are a really good alternative to the traditional bath using water and soap, especially for newborn babies. The wet wipes are for personal care and developed specially for babies' delicate skin, but can be used by all ages. They can be used to clean the whole body and remove impurities easily and effectively, and they are hygienic as they are disposable. Our Bambo Nature Wet Wipes clean and moisturize effectively, while having a soft texture that feels comfortable on the skin.

Wet Wipes, Bambo Nature

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	pcs per pk / pk per cll
1000011933	No colorant or perfume, with rigid lid, 50 pcs.	20x17cm	Viscose	4-5	Z-fold	50 / 14

Bambo Nature Wet Wipes are made of 100% viscose and are a really good alternative to a daily bath, which also has a gentle effect on the skin. The wet wipes are for personal care and developed specially for babies' delicate skin, but can be used by all age groups. The wet wipes have a soft texture that feels comfortable even on sensitive and exposed skin areas. They can be used over the whole body and remove dirt easily and effectively. At the same time, they are hygienic as they are disposable. When you choose our plastic-free wet wipes, you are not only choosing a really good product in terms of body care and body wash – you are also choosing a product that strives to take the environment into consideration.

Aqua Wet Wipes, Bambo Nature

Item number	Features	Dimensions	Material	pH value (conc.)	Folding method	pcs per pk / pk per cll
1000030756	99% water, 52 pcs. without color and perfume	18x17cm	Viscose	4-6	Z-fold	52 / 12

Bambo Nature Aqua Wet Wipes are made with 99% water, and the wipe itself is made from 100% VEOCEL™ viscose fibers, providing a skin-friendly alternative to daily bathing. VEOCEL™ fibers are wood-based and sourced from renewable resources, combining environmental responsibility with outstanding skin compatibility.
Thanks to their naturally smooth and fine surface, VEOCEL™ fibers provide a particularly soft and gentle texture – ideal for sensitive skin. In combination with the mild water-based lotion, these wipes have been specially developed for the delicate skin of babies, but are equally suitable for people of all ages.
The wipes effectively remove impurities from the entire body without causing irritation and leave the skin feeling clean, refreshed, and cared for – even in sensitive or exposed areas.

Baby Oil, Bambo Nature

Item number	Features	Volume, net	ml per pcs / pcs per cll
1999918109	No colorant or perfume	150 ml	150 / 6

ABENA's Bambo Nature Baby Oil is suitable for both normal and dry skin. Can be used in bathtubs, as a lotion, for cradle cap removal and baby massage. The oil forms a protective barrier on the skin that maintains the moisture balance. Our Baby Oil is created with a minimalist approach with only a few carefully selected ingredients.

Sunscreen, Bambo Nature

Item number	Features	Volume, net	pH value (conc.)	ml per pcs / pcs per cll
1999909777	SPF 30, No colorant or perfume, 23% lipids, EU	200 ml	5-6	200 / 6
1999909778	SPF 30, No colorant or perfume, 23% lipids, EU	500 ml	5-6	6 / 104
1999910257	SPF 30, No colorant or perfume, 23% lipids, SCA	500 ml	5-6	6 / 104

Bambo Nature Sunscreen SPF 30 gives you outstanding sun protection through a wide selection of certified sun creams that cover the entire family's need for effective sun protection. What Bambo Nature sunscreens have in common is that they protect effectively against the sun's harmful UVA and UVB rays, while also being light in texture and quickly absorbed.
All Bambo Nature's sunscreens are certified with the Nordic Swan Ecolabel and by the Vegan Society, and recommended by Asthma Allergy Nordic, dermatologically tested on sensitive skin, and do not contain neither fragrance nor (perfume or) colorants. The products are Reef Safe, which means that they have been developed so that they have as little impact on the maritime environment as possible when you bath with the sunscreen on.
Remember to avoid the harsh sun and apply sunscreen regardless of whether you are directly in the sun or stay in the shade.

Labels and certificates

The Dermatologically Tested symbol guarantees that products have been tested for ingredients which can potentially cause skin irritation. Tests are conducted by an independent third-party laboratory.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

Asthma Allergy Nordic is a proof of the product being recommended by the experts from Asthma-Allergy Nordic. Products with the label do not contain perfume, and they pose a minimal risk of skin allergy development.

Products with the Vegan Society certificate do not contain animal substances and are not tested on animals.
